

UNITED METHODIST COMMUNITY SERVICES

The Baltimore-Washington Conference of the United Methodist Church

Rev. Marceron:

United Methodist Community Services (UMCS), an agency of the Conference Board of Global Ministries, provides a comprehensive online Human Services Directory for use throughout our Conference. With this Directory, persons seeking services for themselves or on behalf of others will be able to locate resources that are accessible and reliable.

An important feature of the Directory is that it provides website information about assistance ministries being offered or supported by local United Methodist churches throughout our Conference.

During this Winter season, it is helpful for pastors and others to know where pantry foods, winter clothing, hot meals and referrals to reliable health resources are available to those seeking assistance.

If your church provides or supports assistance of any kind to persons who come to your door seeking help, we ask that you indicate the ministries or service your church offers by completing the questionnaire available on the UMCS website. If your church already has shared information about the ministries you offer, please update the information so that it is current.

We have attached step-by-step instructions for your convenience. Below, you will find your credentials to access the system:

- User Name: jmarceron25
- Password: jjm2169

We hope you will respond to this request to share information about the valuable ministries your church offers to assist those living in poverty.

With God's blessing and love,

Rev. Don Llewellyn, UMCS Director

UMCS Office: 200 School Lane, Linthicum Heights, MD 21090
